GlassVu™ is the ultimate in high-contrast projection films. The film provides stunning and crisp images to make any business stand out and increase customer awareness.

GlassVu™ is available in standard high-contrast or extra-high-contrast for bright areas.

The special carbon coated film gives the business owner a stunning solution for promoting their business at the shop-front and in-store. The vibrant and dynamic display attracts attention. GlassVu™ gives you unprecedented flexibility in design and uniqueness in visual presentations.

The ultra-thin GlassVu™ film provides a sharp crisp image when applied to shop-front glass or ready-to-hang acrylic panels.

GlassVu™ is only 0.105mm thick, available in two contrast levels with standard widths up to 2.6 metres wide. Available in 4:3 and 16:9 ratios.
